Each step has a corresponding image and a 'REFRESHING TO REALITY' callout. The overall theme is modern kitchen design and renovation.

Katrina can read astrology charts and a PSL. She dreams of running short-term rental properties world wide—when she isn't busy saving the world from bad photos. With more than 15 years of sales and marketing experience, Katrina changes the way growth-minded teams bring in business: practical and heart-centered with a dash of magic. At North Star HQ, a digital marketing agency, she led the team to bring in \$9M worth of leads for clients this past year. Yet, she knows that burnout isn't fun or productive so she founded Sacred Home, an online space where entrepreneurs can go to cleanse energy vampires from their home office. At its core, Sacred Home is a magic wand. Point the wand to replenish both heart and soul.

"It is RARE that I write testimonials. I'm not in the habit of doing it. Testimonials like candy or a cornucopia, top of that. I'm a New Yorker, so I'm not easily impressed at all. But, Katrina is different. She is the real deal – consummate professional. I can rely on her to not only get things done, but to understand context and marketing action plans that need to be executed in very specific ways. This is not a skill set you find everywhere. Katrina is organized and I really KNOW that everything is going to get done – which leaves me free to focus on other things. I consistently seek Katrina's input on strategy and approaches to social media marketing. What I love most? In the rare instance she doesn't know something, she'll say so – but will then take the time to find out! It doesn't get any better than that. If you don't know what you're doing, that's cool. Katrina DOES. I recommend Katrina WITHOUT reservation. If you're on the fence, get off it and give her a go."

ABOUT US

The best new way to wirelessly charge your phone on the go.

We at Sparkee, the leaders in on-the-go wireless charging, believe that the future of wireless charging is truly portable and convenient. We've created a sleek, compact, and sturdy design that allows you to charge your phone anywhere, anytime. Our mission is to make wireless charging accessible to everyone, so you can always be connected and charged up.

Sparkee was created by Kyle Stevenson, a 20-year-old college graduate entrepreneur from South Florida. Kyle is an FIVU graduate and a double major in marketing and entrepreneurship. He also has a gift for writing and editing, and loves to help others succeed. However, after years of trying to charge his phone on-the-go, he realized there had to be a better way. After much research and testing, Kyle decided to take a product he was certain about, wireless chargers, and change the game.

And that is how Sparkee was born. The truly wireless and portable phone charger for today's mobile world.
